

STATE GUARD CALLED TO FIGHT FOREST FIRES

THREE TOWNS IN
AITKIN COUNTY
IN GREAT DANGER

GOVERNOR PREUS MOTORED TO
FIRE AREA MONDAY RETURN-
ING HOME TODAY

SITUATION TODAY IS GREATLY
IMPROVED OWING TO LACK
OF WIND

(By United Press)
St. Paul, Sept. 6.—A dead calm early today relieved the forest fires situation in the district lying between Mille Lacs lake and Duluth.

Between 700 and 800 National guardsmen are helping put out fires and patrolling White Pine, Solana and McGrath. The latter town was in the path of seething flames yesterday and was relieved today, for the flames passed seven miles from it.

Ranger George McMonagle at Moose Lake said the situation in that section was more favorable early today than at any time this week. Unless the wind worked up again today, they would continue to be in good shape.

Ranger Swedberg, in the section at White Pine, Solana and McGrath, was in the field early today and said the situation was favorable.

Town Ready to Move
State Forester W. T. Cox and Adjutant General Rhinow were at McGrath. Preparations were made yesterday to move the whole population out of town, but the danger passed and the town breathed easier.

Governor Preus motored there after dark last night and back to St. Paul today. He said the guardsmen would continue on duty until all danger was past. Guardsmen from Duluth, St. Cloud, St. Paul, Aitkin and Milaca have been split in squads to assist in fire fighting.

Knife River Fire
A new fire on the Knife River north of Duluth threatened farms late yesterday, but reports at 5 a. m. today said the fire was under control.

Fires at Cloquet are all under control.

A small fire in Morrison county near Randall threatened to spread, but was gotten under control Saturday.

Fires on the Mesaba iron range, as reported from Hibbing, are under control.

The only fires continuing to give concern are those in the section at and near White Pine, Solana and McGrath. Sufficient men are in the district to cope with any fire spread and will continue stamping it out.

SCHOOLS REOPEN

St. Paul, Sept. 6.—A majority of public schools in the northwest were reopening today.

Enrollments were being taken, classes assigned and book lists given out in grade schools.

Superintendent of education in Minnesota, North and South Dakota as well as other states, believe that enrollments will be increased in proportion to previous averages.

Slack times industrially ill not interfere with the educational advancement, they said. In former years "hard times" always witnessed a falling off in school attendance among poorer classes of people. This condition has been remedied by legislation and restrictions on child labor, officials said.

GUN BATTLE
FATAL TO TWO

(By United Press)

St. Paul, Sept. 6.—One man is dead and two were wounded in a gun battle in a West Seventh street saloon last night. Chas. Marcelli died with a bullet in his lung. Sam Gurin is probably fatally wounded at the city hospital. A third man who was wounded escaped. Police were unable to learn the cause of the shooting. Two bar tenders were held as material witnesses.

CY THOMPSON
PLEADS GUILTY

IS SENTENCED TO STATE PRISON
FOR INDETERMINATE
PERIOD

(By United Press)
Austin, Minn., Sept. 6.—R. J. "Cy" Thompson, alleged master embezzler, was sentenced to an indeterminate term in state prison today when he pleaded guilty to two charges of thieving from the George E. Hormel Packing company.

Judge F. D. Meighan sentenced Thompson to an indeterminate term in Stillwater on a first charge of embezzling \$390,000 and gave him the same sentence on the second charge which alleges he embezzled \$85,000. The second term is to begin after expiration of the first and the second is not to exceed five years.

Thompson said, "I have no excuse. I did it. I don't know why." His wife and mother were in the courtroom at the time. His wife sobbed during the proceedings.

LEAGUE OF NATIONS
POSTPONES CHILE-
BOLIVIA DISPUTE

BY THIS ACTION THE ASSEMBLY
AVOIDED CHILE'S WITH-
DRAWAL

B. YHENKY WOOD,
(United Press Staff Correspondent.)

Geneva, Sept. 6.—The league of nations assembly today postponed consideration of the dispute between Chile and Bolivia which was the head of the agenda.

By this action the assembly avoided the threatened withdrawal of Chile from the league. President Edwards of the Chile delegation has been prepared with a speech for the opening day's session in which he was to protest against Bolivia's insertion in the league agenda on the question of revision of her 1904 treaty with Chile. The crisis was averted. The Peruvian delegation which was expected to take part in this first dispute between the league assembly had not appeared nor had representatives of Central American countries. The United States was not mentioned on the floor of the assembly during the first session today.

TROOPS, WITHOUT
FIRING OF SHOT,
END MINGO WAR

THOUSANDS OF MINERS SURRENDER ARMS AND DISBAND—
GEN. BANDHOLTZ CON-
SIDERS WITHDRAWAL

Charleston, W. Va., Sept. 6.—Without the firing of a shot or the shedding of a drop of blood, the federal troops today had brought the mine warfare to an end, temporarily at least.

Labor day found the federal troops patrolling the troubled area and clearing out all armed men they encountered.

During the night regulars moved into the most remote sectors of the fighting zone and met resistance nowhere. Reports pouring into army headquarters by wireless from every part of the occupied territory indicated that peace reigned again.

The net results of two days of federal occupation were:

Nearly a thousand miners surrendered and were permitted to go unmolested to their homes.

The remainder of the miners army of invasion, numbering approximately 7,500 men, were disintegrating rapidly. Approximately 300 rifles and pistols were stacked by the miners on the Logan front and turned over to the federal troops. The "army of the defense of Logan" 400 strong, made up of county and state forces dispersed and gave up their positions to federal troops.

General Bandholtz, it was learned, was so well satisfied with the situation that he had under consideration a recommendation that the Camp Dix troops be returned if the situation did not change today.

Army officers, delighted at the rapid progress they have made in cleaning up the situation, are fearful, however, that they are in for a long policing job. Well informed observers are of the opinion that the present peaceful status will last just as long as the federal troops remain, and no longer. Differences between the miners and the operators are so deep seated that most West Virginians despair of a settlement being reached.

Miners Respectful to Troops

The friendly and respectful attitude of the miners toward the federal authorities stands out in striking contrast to their hatred and distrust for the local authorities. Miners have been taught from childhood to loathe the deputy sheriffs and private detectives which the operators hire to protect their property. They make no pretense of respect for the deputy sheriffs, whose badge of power, they contend, is merely bought and paid for by the operators. They look upon the deputies in much the same light as did their pioneer forefathers, the Indians.

Doubt Surrender of All Arms

There is considerable doubt as to whether miners are surrendering all their arms. They are not turning their rifles over to the federal troops in the proportion in which they were reported to be armed several days ago. It is pretty well understood that they are holding out the best of their fire-arms for eventualities, such as they expect to occur when the federal troops leave.

Casualties Declared Small

Army headquarters are going to endeavor to check up on the number of casualties in the war for the last week. Many wild estimates are on hand, running as high as 500 dead, but careful investigation leads to doubt as to whether the number of dead on both sides will exceed a dozen and the wounded not many more, although tens of thousands of rounds of ammunition were fired.

The conduct of the miners' army have been exemplary.

BANK CASHIER
KILLS WIFE, SELF
AND 5 CHILDREN

RECENTLY RESIGNED POSITION,
DECLINING TO GIVE

IN PERFECT ORDER OF-
FICIALS REPORT

(By United Press)
Ormsby, Sept. 6.—Frank Klocow, former bank cashier, shot and killed his wife and five children, and then turned the revolver on himself and put a bullet in his brain, Coroner Thompson believed today.

Mrs. Albert Strelow, a neighbor woman, found the bodies. While passing to the rear of the house she saw a note pinned to the back door on which had been scrawled, "Come in."

The revolver used to kill wife and children was found under Klocow's arm.

The boys, Fred 16, Glenn 12 and Oliver 10 were shot as they lay in their beds upstairs.

Myrtle, age 14, was shot as she slept on a cot downstairs. Mrs. Klocow and baby Leland, age 3, were shot as they lay in bed and beside their bodies lay Klocow. One shot killed Klocow. All the others killed were shot twice.

Klocow recently resigned his position as cashier at the bank, and refused to give any reason. His books were in perfect order. On Saturday he paid all his bills about town in cash, although previously he had always used checks.

The shooting, according to the coroner, probably took place after midnight Saturday. The bodies were found later.

NORTHWEST NEWS

Veterans Held Reunion

Minneapolis, Sept. 6.—Veterans who went into the Civil War with the Fourth Regiment Minnesota Infantry volunteers were honored today.

The occasion was the thirty-ninth annual reunion of the society founded by veterans of that unit. About 200 veterans and relatives were here for the festivities.

N. D. Supreme Court Meets

Bismarck, Sept. 6.—Several important appeals are on the calendar for September term of the state supreme court opening today.

Among the cases of interest is an appeal from the decision of Judge Allen on the libel suit brought by former Attorney General Wm. Langer against the Courier-News, a nonpartisan daily of Fargo.

Upon the defendant's application for change of venue, the case was transferred from Cass to Richland county whereupon the defendants applied for another change which Judge Allen denied.

Henry Laver, self confessed slayer of the Wolfe family at Turtle Lake in the spring of 1920, has repudiated his confession on the alleged grounds it was obtained by duress, and asks appeal from District Judge Nessle's decision denying him a new trial.

David H. Uglund, former prominent Knox banker, appealed from conviction in district court of stealing grain. He was arrested on this charge immediately after being paroled from the penitentiary for embezzlement and forgeries totalling about a quarter of a million.

RECRUITING FOR
ARMY RESUMED

(By United Press)

Washington, Sept. 6.—The war department has issued orders for the resumption of recruiting to the army. Secretary of War Weeks said today.

This action was taken, Weeks explained, because of the recent wholesale discharge of enlisted men which has brought the total strength of the army to below 150,000, the strength authorized by the army appropriation bill.

(By United Press)

Tacoma, Wash., Sept. 6.—Mail trains throughout the northwest today carried special guards armed with rifles fearing a holdup by Roy Gurin, notorious railroad bandit who escaped from McNeil's Island federal prison late yesterday.

Gurin who was serving fifty years for robbery, escaped during a prisoners' ball game.

Gurin, with Everett Imtyn and Lawrence Bogart, fellow convicts, made a break for the prison walls during an excitable ball game.

Half a dozen guards opened fire. Imtyn was killed. Bogart was seriously wounded. Gurin, with luck that has marked his bandit career was untouched, and he scaled the wall with the ability of an athlete while bullets whizzed all around him. He dropped to the ground on the outside and disappeared.

MILLIONS ADVANCED
FOR FOOD EXPORT

(By United Press)

Washington, Sept. 6.—Hundreds of millions of dollars soon will be advanced to aid in the exportation of farm produce by farm corporations Managing Director Eugene Meyer said today.

Plans have been virtually made for carrying out a bill recently passed by congress directing corporations to aid agricultural interests in this manner. Loans on exports up to one billion dollars can be made under the act but this figure probably will not be reached for several months. Special committees or corporations now are being formed to investigate appeals for food.

CABINET MEETING

FLAMES AGAIN GET OUT OF CON-
TROL OF NATIONAL GUARD
FIGHTING FLAMES

(United Press)

McGrath, Minn., Sept. 6.—Half a dozen towns northeast of here were endangered late today, as forest fires beyond control of state troops and forest rangers, swept southeastward on a four mile front.

The village of White Pine was charred as the fire swept over the town. Villagers had deserted their homes yesterday.

State Forester Cox warned that the situation was becoming more serious hourly as the wind's velocity increased.

Solana, Arthyde, Ellison, Denham, Willow River and Sturgeon Lake were in danger it was said.

Increasing wind made possible destruction approaching the calamity of 1918 when millions of acres in this section were burned and more than three hundred persons burned to death.

The fatal fire between Solana and White Pine and south toward McGrath were mostly of incendiary origin, according to Forest Ranger Chas. Williams. He said he expected to make arrests soon. Some of the fires were said to have been set by moonshiners near McGrath in hope to destroy stills to keep authorities from finding evidence against them. A still and some mash were found in the center of a fire area.

National guards brought here from various centers were unable to cope with the fire situation today when the wind changed to the west and blew the flames back toward White Pine and eastward along the Soo line right of way. Some guardsmen and volunteers were forced to flee for their lives when the fire began to advance. Narrow escapes have been made.

Yesterday thirty guardsmen were caught when the wind changed and blocked their efforts to back fire against a blaze near Solana. Flames swept over them and they were forced to lie flat in the road until the danger was past. They covered their faces with their handkerchiefs wet with water from their canteens. Forest rangers aided them to escape later.

Source of Diamonds.

While some diamonds are obtained from river sands, most of them are obtained by mining. The diamonds occur largely in a soft volcanic rock known as "blue ground." This rock is taken from the mines spread out in the open air and allowed to decompose; it is afterward washed and separated.

Center of Perfume Industry.

The center of the natural perfume industry has been for many years in Grasse, France. Here each year more than 5,500,000 pounds of orange blossoms, 4,400,000 pounds of roses, 1,400,000 pounds of jasmine, 800,000 pounds of violets and 80,000 pounds each of tuberose and cassia are used.

Ligon, W. Va., Sept. 6—Union and
non union miners were to resume dig-
ging today. Everything was quiet
along last week's battle ground and
federal troops were ordered to with-
draw.

Protests to General Bandholtz
against the immediate withdrawal of
regulars were expected today on be-
half of citizens of Logan county who
anticipated more trouble from union
miners as soon as troops depart.

BANK CASHIER
KILLS WIFE, SELF
AND 5 CHILDREN

RECENTLY RESIGNED POSITION,
DECLINING TO GIVE
REASON

HIS BOOKS AND ACCOUNTS WERE
IN PERFECT ORDER OF
FICIALS REPORT

(By United Press)
Ormsby, Sept. 6—Frank Klocow,
former bank cashier, shot and killed
his wife and five children, and then
turned the revolver on himself and
put a bullet in his brain, Coroner
Thompson believed today.

Mrs. Albert Strelow, a neighbor
woman, found the bodies. While pass-
ing to the rear of the house she saw
a note pinned to the back door on
which had been scrawled, "Come in."
The revolver used to kill wife and
children was found under Klocow's
arm.

The boys, Fred 16, Glenn 12 and
Oliver 10 were shot as they lay in their
beds upstairs.

Myrtle, age 14, was shot as she
slept on a cot downstairs. Mrs. Klocow
and baby Leland, age 3, were shot
as they lay in bed and beside their
bodies lay Klocow. One shot killed
Klocow. All the others killed were
shot twice.

Klocow recently resigned his po-
sition as cashier at the bank, and re-
fused to give any reason. His books
were in perfect order. On Saturday
he paid all his bills about town in
cash, although previously he had al-
ways used checks.

The shooting, according to the cor-
oner, probably took place after mid-
night Saturday. The bodies were
found later.

NORTHWEST NEWS**Veterans Held Reunion**

Minneapolis, Sept. 6—Veterans who
went into the Civil War with the
Fourth Regiment Minnesota Infantry
volunteers were honored today.

The occasion was the thirty-ninth
annual reunion of the society found-
ed by veterans of that unit. About
200 veterans and relatives were here
for the festivities.

N. D. Supreme Court Meets

Bismarck, Sept. 6—Several impor-
tant appeals are on the calendar for
September term of the state supreme
court opening today.

Among the cases of interest is an
appeal from the decision of Judge Al-
len on the libel suit brought by for-
mer Attorney General Wm. Langer
against the Courier-News, a nonpar-
tisan daily of Fargo.

Upon the defendant's application for
change of venue, the case was trans-
ferred from Cass to Richland county
whereupon the defendants applied for
another change which Judge Allen de-
nied.

Henry Laver, self confessed slayer
of the Wolfe family at Turtle Lake in
the spring of 1920, has repudiated his
confession on the alleged grounds it
was obtained by duress, and asks ap-
peal from District Judge Nessle's de-
cision denying him a new trial.

David H. Ugland, former prominent
Knox banker, appealed from convic-
tion in district court of stealing grain.
He was arrested on this charge im-
mediately after being paroled from the
penitentiary for embezzlement and
forgeries totalling about a quarter of
a million.

**RECRUITING FOR
ARMY RESUMED**

(By United Press)

Washington, Sept. 6—The war de-
partment has issued orders for the
resumption of recruiting to the army.
Secretary of War Weeks said today.

This action was taken, Weeks ex-
plained, because of the recent whole-
sale discharge of enlisted men which
has brought the total strength of the
army to below 150,000, the strength
authorized by the army appropria-
tion bill.

NOTORIOUS BANDIT
ESCAPES PRISON

MAIL TRAINS CARRY SPECIAL
GUARDS ARMED WITH RIFLES
FOR PROTECTION

(By United Press)
Tacoma, Wash., Sept. 6—Mail trains
throughout the northwest today car-
ried special guards armed with rifles
fearing a holdup by Roy Gurin, notor-
ious railroad bandit who escaped from
McNeil's Island federal prison late
yesterday.

Gurin who was serving fifty years
for robbery, escaped during a pris-
oners' ball game.

Gurin, with Everett Imtyn and Law-
rence Bogart, fellow convicts, made a
break for the prison walls during an
excitable ball game.

Half a dozen guards opened fire.
Imtyn was killed. Bogart was se-
riously wounded. Gurin, with luck
that has marked his bandit career
was untouched, and he scaled the wall
with the ability of an athlete while
bullets whizzed all around him. He
dropped to the ground on the outside
and disappeared.

**MILLIONS ADVANCED
FOR FOOD EXPORT**

(By United Press)
Washington, Sept. 6—Hundreds of
millions of dollars soon will be ad-
vanced to aid in the exportation of
farm produce by farm corporations
Managing Director Eugene Meyer said
today.

Plans have been virtually made for
carrying out a bill recently passed by
congress directing corporations to aid
agricultural interests in this man-
ner. Loans on exports up to one bil-
lion dollars can be made under the
act but this figure probably will not
be reached for several months. Spec-
ial committees or corporations now
are being formed to investigate ap-
peals for food.

**CABINET MEETING
IS ABANDONED**

(By United Press)
Washington, Sept. 6—The usual cab-
inet meeting with President Hard-
ing was abandoned today. The president
arrived in Washington from his week
end cruise at 11 a. m. and went direct
to the White House where he con-
ferred with Secretary Weeks and jumped
into a mass of work accumulated on
his desk.

(By United Press.)

New York, Sept. 6—Four murders
of Italians during the last 24 hours
led police to believe the "Good Kill-
ers," a Sicilian organization of hired
assassins had resumed operations.
Further killings are feared today.
Suspects are being watched here and
in Boston, Pittsburgh and Chicago.

RISING WIND LATE
TODAY FANS FLAME
INCREASED DANGER

SWEEPS OVER VILLAGE OF WHITE
PINE, WHICH WAS DESERT-
ED YESTERDAY

FLAMES AGAIN GET OUT OF CON-
TROL OF NATIONAL GUARD
FIGHTING FLAMES

(United Press)
McGrath, Minn., Sept. 6—Half a
dozen towns northeast of here were
endangered late today, as forest fires
beyond control of state troops and
forest rangers, swept southeastward
on a four mile front.

The village of White Pine was
charred as the fire swept over the
town. Villagers had deserted their
homes yesterday.

State Forester Cox warned that the
situation was becoming more serious
hourly as the wind's velocity increas-
ed.

Solana, Arthyde, Ellison, Denham,
Willow River and Sturgeon Lake were
in danger it was said.

Increasing wind made possible de-
struction approaching the calamity of
1918 when millions of acres in this
section were burned and more than
three hundred persons burned to
death.

The fatal fire between Solana and
White Pine and south toward Mc-
Grath were mostly of incendiary ori-
gin, according to Forest Ranger Chas.
Williams. He said he expected to
make arrests soon. Some of the fires
were said to have been set by moon-
shiners near McGrath in hope to de-
stroy stills to keep authorities from
finding evidence against them. A still
and some mash were found in the
center of a fire area.

National guards brought here from
various centers were unable to cope
with the fire situation today when
the wind changed to the west and
blew the flames back toward White
Pine and eastward along the Soo line
right of way. Some guardsmen and
volunteers were forced to flee for their
lives when the fire began to advance.
Narrow escapes have been made.

Yesterday thirty guardsmen were
caught when the wind changed and
blocked their efforts to back fire
against a blaze near Solana. Flames
swept over them and they were forced
to lie flat in the road until the dan-
ger was past. They covered their
faces with their handkerchiefs wet
with water from their canteens. For-
est rangers aided them to escape lat-
er.

Source of Diamonds.
While some diamonds are obtained
from river sands, most of them are
obtained by mining. The diamonds
occur largely in a soft volcanic rock
known as "blue ground." This rock
is taken from the mines spread out
in the open air and allowed to decom-
pose; it is afterward washed and
separated.

ITALY WILL GET HUGHES' PORTRAIT

UNIQUE HONOR PAID SECRETARY OF STATE BY AMERICANS OF ITALIAN BIRTH.

TO RECOGNIZE HIS SERVICES

Oil Painting Will Be Presented to the Government at Rome—Former Justice Promoted Cordial Relations Between the Countries.

By EDWARD B. CLARK.

Washington.—Secretary of State Charles Evans Hughes consented recently to lay aside the affairs of his department for an hour or so a day at brief intervals to pose for an oil portrait which is to be presented by 100,000 Italian citizens in America to the Italian government as a mark of the esteem in which the secretary is held by Italians, not only in the land of their adoption, but in that of their nativity. His letter of acceptance was addressed to Dr. Pasquale Badia, who made the request on behalf of a general committee of his Italian admirers, headed by Justice John J. Freschi of New York city.

The request for Secretary Hughes to pose for his portrait was made after his admirers were informed, through the Italian ambassador, that such a gift would be most acceptable to the Italian government. The invitation came as a complete surprise to Secretary Hughes, and, so far as his friends can remember, it is without precedent.

Italians Admire Him.

The movement among the Italians to procure an oil portrait of Secretary Hughes was prompted not only by their desire to pay a personal tribute to Mr. Hughes, but also by a growing sentiment of friendliness and understanding between the two countries. Mr. Hughes has endeared himself particularly to this element by what he has done to promote closer relations between Italy and America in commerce as well as in diplomacy. Perhaps his most effective efforts in this direction were made while Mr. Hughes was president of the Italy-America society.

The appointment of Mr. Hughes as secretary of state was received with the greatest satisfaction in Italy, and there were demonstrations in many Italian communities in honor of the occasion. On this side of the Atlantic the admirers and friends of Secretary Hughes are anxious to show the folk back in the old country that a secretary of state is not without honor in his own country.

The plan was originated in the Italian colony in New York city. It met with such immediate approval that a committee was organized to further it. Justice John J. Freschi of the court of special sessions is chairman of the general committee and among its members are Fiorella H. LaGuardia, president of the board of

aldermen; State Senator Salvatore Cotillo, Professor Angelo Patri and Dr. Badia.

How He Promoted Cordiality.

"During his long term as president of the Italy-America society," said Justice Freschi, "Judge Hughes gave much of his valuable time to the program of that organization—and it was an immense program. The Italy-America society was organized for the purpose of promoting more cordial relations between the two countries."

"It was largely through the activities of Judge Hughes that this society brought about the exchange professorships between Italy and America, the exchange of students and the stimulation of commerce and the things which go to make the two nations better friends. Judge Hughes has always shown the most active interest in things Italian relating to America, and it is in recognition of his sincere friendship for Italy that the Italian citizens of the United States, both native-born and foreign-born, are anxious to present to Italy his portrait."

The interest of Secretary Hughes in Italian-American friendship already has received recognition from the Italian government, explained Justice Freschi, who said he had been made a grand officer of the order of the Crown of Italy because he also was one of those most active in the entertainment of visiting Italian celebrities and because he presided at several anniversary celebrations of Italy's entrance into the war.

Furthermore, it was through the special solicitation of Mr. Hughes that the governors of all the states in the union designated May 24, the date of Italy's entrance into the war, as Italy day, and inaugurated its celebration throughout America.

The signatures of the 100,000 Italian admirers of Secretary Hughes who requested him to pose for his portrait has been bound in a handsome volume, which was presented to him by a subcommittee of the general committee.

Star Shells in War.

The star shell may take the place of the searchlight in searching out enemy craft if experiments now being conducted by the navy department meet with success. Flashless powder used in propelling the shells from the guns and the flash of the shells themselves as they explode will light up the sea for a wide area without betraying the exact location of the ship projecting them.—Denham Independent.

First Really National Bank.

Bank of North America was the name of the first bank of a national character. It had a charter for ten years, from 1741, from the confederation, but doubt as to its legality led the bank to seek and obtain a charter from the state of Pennsylvania in 1783. In 1785 this latter charter was revoked, but in 1787 it was renewed. It was located at Philadelphia.

ITALY WILL GET HUGHES' PORTRAIT

UNIQUE HONOR PAID SECRETARY OF STATE BY AMERICANS OF ITALIAN BIRTH.

TO RECOGNIZE HIS SERVICES

Oil Painting Will Be Presented to the Government at Rome—Former Justice Promoted Cordial Relations Between the Countries.

By EDWARD B. CLARK.

Washington.—Secretary of State Charles Evans Hughes consented recently to lay aside the affairs of his department for an hour or so a day at brief intervals to pose for an oil portrait which is to be presented by 100,000 Italian citizens in America to the Italian government as a mark of the esteem in which the secretary is held by Italians, not only in the land of their adoption, but in that of their nativity. His letter of acceptance was addressed to Dr. Pasquale Badia, who made the request on behalf of a general committee of his Italian admirers, headed by Justice John J. Freschi of New York city.

The request for Secretary Hughes to pose for his portrait was made after his admirers were informed, through the Italian ambassador, that such a gift would be most acceptable to the Italian government. The invitation came as a complete surprise to Secretary Hughes, and, so far as his friends can remember, it is without precedent. Italians Admire Him.

The movement among the Italians to procure an oil portrait of Secretary Hughes was prompted not only by their desire to pay a personal tribute to Mr. Hughes, but also by a growing sentiment of friendliness and understanding between the two countries. Mr. Hughes has endeared himself particularly to this element by what he has done to promote closer relations between Italy and America in commerce as well as in diplomacy. Perhaps his most effective efforts in this direction were made while Mr. Hughes was president of the Italy-America society.

The appointment of Mr. Hughes as secretary of state was received with the greatest satisfaction in Italy, and there were demonstrations in many Italian communities in honor of the occasion. On this side of the Atlantic the admirers and friends of Secretary Hughes are anxious to show the folk back in the old country that a secretary of state is not without honor in his own country.

The plan was originated in the Italian colony in New York city. It met with such immediate approval that a committee was organized to further it. Justice John J. Freschi of the court of special sessions is chairman of the general committee and among its members are Florella H. LaFontaine, president of the board of

aldermen; State Senator Salvatore Cottillo, Professor Angelo Patri and Dr. Badia.

How He Promoted Cordiality.

"During his long term as president of the Italy-America society," said Justice Freschi, "Judge Hughes gave much of his valuable time to the program of that organization—and it was an immense program. The Italy-America society was organized for the purpose of promoting more cordial relations between the two countries.

"It was largely through the activities of Judge Hughes that this society brought about the exchange professorships between Italy and America, the exchange of students and the stimulation of commerce and the things which go to make the two nations better friends. Judge Hughes has always shown the most active interest in things Italian relating to America, and it is in recognition of his sincere friendship for Italy that the Italian citizens of the United States, both native-born and foreign-born, are anxious to present to Italy his portrait."

The interest of Secretary Hughes in Italian-American friendship already has received recognition from the Italian government, explained Justice Freschi, who said he had been made a grand officer of the order of the Crown of Italy because he also was one of those most active in the entertainment of visiting Italian celebrities and because he presided at several anniversary celebrations of Italy's entrance into the war.

Furthermore, it was through the special solicitation of Mr. Hughes that the governors of all the states in the union designated May 24, the date of Italy's entrance into the war, as Italy day, and inaugurated its celebration throughout America.

The signatures of the 100,000 Italian admirers of Secretary Hughes who requested him to pose for his portrait has been bound in a handsome volume, which was presented to him by a sub-committee of the general committee.

Star Shells in War.

The star shell may take the place of the searchlight in searching out enemy craft if experiments now being conducted by the navy department meet with success. Flashless powder used in propelling the shells from the guns and the flash of the shells themselves as they explode will light up the sea for a wide area without betraying the exact location of the ship projecting them.—Dearborn Independent.

First Really National Bank.

Bank of North America was the name of the first bank of a national character. It had a charter for ten years, from 1741, from the confederation, but doubt as to its legality led the bank to seek and obtain a charter from the state of Pennsylvania in 1783. In 1785 this latter charter was revoked, but in 1787 it was renewed. It was located at Philadelphia.

FORMAL MEETING BUSINESS WOMEN

Held at Miss Engsberg's Room in the Court House, With the Former Presiding

EXECUTIVE COMMITTEE REPORT

Program, Membership, Finance and Publicity Committees Were Announced at Gathering (Contributed)

The first formal meeting of the Business and Professional Women's club was held Thursday evening at the court house, Miss Engsberg, president, presiding. After the call to order and the reading of the minutes by the recording secretary, Miss Jennie Nelson, the names of the members of the club were called, those present rising. As the last name was read, and the president announced that the membership had reached one hundred and one, a burst of applause came from the assembly.

The report of the executive committee was then read the following committees having been appointed by them:

The executive committee consists of the following women:
Harriet Engsberg—President.
Islay M. McColl—Vice President.
Jennie Nelson—Recording secretary.
Pearl E. Falconer—Corresponding secretary.

Eula Michael—Treasurer.
Program Committee—Sal Schelin, chairman, Margaret Stoner, Marie Adair, Dorothy Carmichael, Ella A. Olson.

Membership Committee—Esther Fogelstrom, chairman, Rose Anderson, Isabelle Worden, Jessie Johnson, Margaret Johnson.

Finance Committee—Alpha Irgens, chairman, Floda Canniff, Sylvia Nelson, Martha Moe, Sophia E. Witte.

Publicity Committee—Islay M. McColl, chairman, Lydia Klein, Mabel Sheffo.

The executive committee has power to transact the routine business of the club between meetings but shall not incur liability to exceed ten dollars for any purpose without the sanction of the club. Therefore, this committee made a report of expenditures for postage, cards, and stationery.

The matter of adequate club rooms was discussed at length, and a number of suggestions were made. At the next meeting reports will be made of the progress achieved, and the finance committee will then be asked to provide ways and means for securing the club rooms.

It is hoped that entertainment of community interest can be furnished by the club this winter, and to that end an inquiry has been sent to the Manager of Tours, Boston, Mass. Mr. Arthur Fisher, editor of Personality magazine, and a gifted reader, is under his management and the program committee may be able to arrange for his appearance here.

The work of this reader is said to be characterized by a breadth of

vision, keenness of preception and perfection of dramatic technique rarely combined in one person. He personated every role in a play with such consummate skill that a dozen or more characters seem to people the stage—one can almost feel their presence. If Mr. Fisher's routing is in this vicinity, the people of Brainerd will be assured of a rare treat.

The club is also arranging classes in gymnasium work, bowling, cooking, sewing, basketry and also a literary class, and those members interested should sign up as soon as possible. Lists of these classes are with Miss Engsberg and Miss McColl.

It was to meet the needs of the women who do not have time to attend afternoon meetings that the Business and Professional Women's club was organized who until a short time ago were denied the stimulus of rubbing elbows with other successful women of the business world.

The object of the club is to promote the interests of the business and professional women, and bring the members into relations of mutual helpfulness.

By joining the National Federation the little, new club is brought in close touch with older, stronger clubs, and is assured a quicker growth by being linked up with the national movement.

HACKENSACK ROBBERY SOLVED

Sheriff Mack Kennedy Never Let Up On the Job Until He Located the Stolen Furs

(Walker Pilot)
Last Saturday Sheriff Kennedy made an arrest which eventually solved the Hackensack riddle and led to the recovery of the entire lot of furs which disappeared from the Kriebs store.

The first clue that gave the officials the needed start was the finding of three pieces of furs evidently dropped by accident near Guthrie and found by a farmer, J. A. Okland. Labels bearing Mr. Kriebs' name were found near the furs and Mr. Okland immediately notified the authorities. The morning after the robbery a man called at his home and borrowed an auto pump. This took place very early in the morning and later in the day Mr. Okland went to do some clearing which happened to be near where the stranger evidently had been in trouble with a punctured tire. A newly made path through the brush attracted his attention and out of curiosity he followed this path a few rods and came upon the furs.

Sheriff Kennedy was given a description of the man and the car and

at an auto livery in Bemidji he found one similar and learned from the proprietors that a man by the name of J. A. Stewart had been out with the car at the time in question. Stewart was placed under arrest and brought to the county jail where at first he denied all knowledge of the affair. He was a hotel keeper at Bemidji for a time but has been dealing in moonshine for some time past. He admitted he was out with the car all right but said he was out with another fellow and two girls but did not know any of his companions. He claimed he had bought ten gallons of moonshine that night and had hid it and promised to take the sheriff to the exact spot but when given the opportunity failed. Later he broke down when being questioned by the sheriff and admitted that he drove the car but that two other men did the work and he knew nothing of the whereabouts of the furs and did not receive any of them for his part in doing the driving. He also gave the information that the fellows who took the furs had traded them for a Cole car. This man Stewart has a wife and four children and this part of the family are highly spoken of in Bemidji.

Tuesday Sheriff Kennedy and Deputy Sheriff Allen drove to Ranier and located the furs in the possession of a pool hall proprietor by the name of Harold Clarke. A part of the furs were found in his residence and the remainder in his place of business. He claimed to have traded a six cylinder seven passenger Cole car for the furs and said he did not know they were stolen property.

The officials are now acquainted with the identity of the other parties implicated in the deal and they will be apprehended at once.

M. Kriebs came over from Hack-

ensack Thursday afternoon and together with the sheriff checked on the furs found an dit developed that several coats and neck pieces were still missing. However Mr. Kriebs can be thankful that the loss has been so nearly recovered and there is still a chance that the remaining articles will be brought to light.

Entertained Friends

Miss Islay McColl entertained a few friends Monday evening in honor of the Misses Rollison, of Detroit, Michigan, who are guests of Mr. and Mrs. W. A. M. Johnstone.

During the evening Miss Allee R. Johnstone played the violin accompanied by Miss Charlotte Rollison. As the weather was cool, refreshments were served around the open fireplace.

Miss Rollison and her sister, Miss Ruth, have so enjoyed their visit here that they have cancelled their sailing reservations at Duluth, and will remain another week.

GOOD ADVICE FOR RAILROADERS

Alvah Eastman, editor of the St. Cloud Journal Press, a friend of organized labor, gives the following good advice to the railroad men who are now voting on a strike proposition:

"It is to be hoped that the railroad employees will have the good safety first sense to vote against the strike proposition. To go on a strike at this time would be so unwise a proposition that the men would forfeit the good will of the public, without which no great strike can succeed. There are so many thousand men out of work that the roads can be operated, if it comes down to a strenuous fight, and it would be a near knock out of the railroad labor organization—which would be a pity. Better gather in the wages one is receiving than to fly to a salaryless vacation."

FAMINE RELIEF WEEK

Gov. Preus has designated the week of October 3 to 8 as "Famine Relief Week" in Minnesota, in response to the Near East relief appeal in behalf of the starving people of Armenia, the Russian Caucasus and other districts.

"A call that has come many times to the people of Minnesota is coming again, under the pressure of a need that is more bitter than ever before," says the governor's proclamation.

"The lives of 3,500 children have been put in Minnesota's keeping. The officers of the Near East relief committee, which is endeavoring to feed 500,000 children, say that only the help of Minnesota can save these 3,500 lives from extinction by famine."

KNUTSON GETS BOUQUET

Frank Day, a prominent Democratic politician and editor, in an editorial in his paper, the Fairmont Sentinel, gives Harold Knutson, Republican representative in Congress from this district, the following choice bouquet:

"We will tell the world that in the estimation of men who are thoroughly posted on conditions in Washington, when it comes to getting results, Harold Knutson is the most valuable man on the Minnesota delegation."

The idea prevails very generally with the public that there are more railroad employees than owners of the roads, but according to the Railroad Age there are approximately twice as many owners of rail securities as there are employees. The Northern Pacific road is considered typical of all lines and a recent count showed that there are 73,000 owners of its bonds and stocks, and only about 30,000 employees.

"Jimmy" Cox for president in 1924! Now, don't laugh; it's an actual fact that the Ohio friends of the man who got such a terrible beating last fall, after eight years of Wilsonism, are busy stacking the cards so that "Jimmy" again will receive the Democratic nomination. His nomination would undoubtedly be very acceptable to the Republicans.

Washington announcement is made of the probable adoption of a "passive" attitude toward the possible arrival in that city of beverages of rare vintage along with delegates to the disarmament conference in November—which will probably calm the fears of the delegates.

Stones Swallowed by Elephants.
The habit of swallowing stones appears to be more or less common among elephants. The British museum contains a collection of 18 stones, varying in size from a hen's egg, all taken from the stomach of one African elephant.

Blenheim palace, the residence of the duke of Marlborough, is one of the finest in England. There are 120 rooms in the palace and 15 staircases. It is stated that \$4,000 worth of putty is required every year to keep the window panes in repair.

GOOD NEWS FOR
INJURED BUDDIESPassage of Sweet Bill Insures Quick
Action on Claims of Disabled
Soldiers of World War

Heretofore, the U. S. War Risk Bureau handled compensation and insurance claims. The U. S. Public Health Service handled medical treatment. The Federal Vocational Board handled vocational education.

Each bureau worked independently. Much of their work overlapped. There was no single coordinating head. All claims had to be referred to headquarters at Washington with resulting delay, confusion, and red tape. Many a disabled buddy gave up in despair. And all this time the Legion was urging Congress to pass the Sweet Bill, which would end these troubles. After two years Congress passed it. How does the Sweet Bill affect the disabled ex-service man's chance for securing justice?

In many ways. Here are the two most important. The Sweet Bill has amalgamated the three bureaus mentioned here. They are one body, known as "The Veterans Bureau," with one coordinating head over all. The other great victory was the clause in the Sweet Bill which says that future claims need not be sent all the way to Washington for a decision. Awards may be made or changed by each district branch of the Veterans Bureau. Minnesota is in the Tenth District, the headquarters of which is in the Keith-Plaza Building, Minneapolis. Awards and changes now are made there, instead of at Washington, D. C. A big slash in the red tape has been made. And in the Tenth District another slash will soon be taken. Here's how.

Commencing Labor Day in St. Paul, a "Traveling Squad" of the Veterans Bureau, representing the three former agencies mentioned above will travel through Minnesota, stopping for from one to five days at seventeen different points at which former service men may appear and have their claims for compensation, vocational training, and medical treatment, adjusted. This is a special effort on the part of the officers of the Tenth District to bring justice as near as possible to the home of the ex-service man.

If you know a buddy who has a claim against the government, tell him to write to the "Manager, Veterans Bureau, Keith-Plaza Building, Minneapolis" and ask for a "Transportation Application Form" on which to apply for free transportation and expenses in connection with his trip to the nearest point at which the Traveling Squad will appear to examine him. Tell him to ask for a list of the points and dates at which the Squad will appear, so that he may know how to fill out his Transportation Application Form which should then be sent to Minneapolis, from which transportation will be mailed him.

Before leaving for the examination point, every buddy should have with him all correspondence relative to his case, all army papers in his possession, including his original discharge, his marriage certificate if any, the birth certificates of his children if any, and as many affidavits as possible showing that his injury was incurred in service, how it affected his physical condition while in service, how it affected his physical condition since his discharge from service, how the injury handicaps him in the work he did before he entered service, and such other official papers as he may have relating to his claim against the government. The more reliable information he can produce, the quicker his claim will be adjusted.

The "Traveling Squad" will visit this part of the state in the near future and will be at the following places on the date shown:

At Bemidji on Sept. 28th and 29th for Cass, Hubbard, Clearwater, Beltrami and Koochiching counties.

At Brainerd on October 10 and 11 for Crow Wing and Wadena counties.

AMUSEMENTS

At the New Lyceum

Hailed as a companion picture to the famous "Twenty-Three and a Half Hours' Leave," "The Rookie's Return," with Douglas MacLean's picture opened at the Lyceum theatre last night.

While the popular star's initial success dealt with the troubles and extraordinary experiences of a soldier on the eve of his departure for France, "The Rookie's Return," is a story of a young veteran's return to civilian life and his struggles with the horrors of demobilization and peace.

"The Rookie's Return," was adapted from the original story by Archer MacMackin. Lloyd Ingraham directed and Doris May heads a clever supporting cast. It is to be repeated again tonight.

MEIGHAN A GUNMAN

Popular Star Has Strong Role in "The Frontier of the Stars"

Fancy Thomas Meighan, Paramount star, a gangster and gunman! This is the character he assumes in "The Frontier of the Stars," which comes to the Lyceum theatre Wednesday for two days.

In this thrilling photoplay, Mr. Meighan, as Buck Leslie, a Bowery ruffian meets with a girl whose loftiness of soul and innocence lead him to a better life. There are many thrilling scenes in the action which are calculated to hold the attention of film fans to the finish. Faure Bouney, a popular actress, heads a capable supporting company.

BREEZY POINT LODGE VISITED

All the Attractions of an Exclusive Summer Resort, All Conveniences of a Modern City

GROUNDS INCLUDE 140 ACRES

Bathing, oBating, Canoeing, Motor-ing, Fishing, Tennis, Trap Shoot-ing, Dancing, Aeroplane, Etc.

Nestling on the beautiful shores of Big Pelican lake, 20 miles north of Brainerd and reached by the Gull lake road to Pequot and thence five miles eastward over a scenic, winding road, lies wonderful "Breezy Point Lodge" of Capt. W. H. Fawcett.

To the beauties of nature have been added the arts of man and it is with something akin to admiration and wonder that the Dispatch men heralds the achievements wrought by Capt. "Billy" Fawcett, a brother newspaper man.

"Whiz Bang"

Capt. Fawcett is no more versatile in his accomplishments than is "Breezy Point" in the attractions it offers tourists and visitors. Capt. Fawcett is a Spanish and World War veteran, a successful editor of "Capt. Billy's Whiz Bang," a 67 page magazine published monthly at Robbinsdale and which this September had an issue of 390,000 copies. It is a magazine replete with wit, humor, and philosophy. At the masthead Capt. Fawcett has this statement of Theodore Roosevelt: "We have room for but one soul loyalty and that is loyalty to the American people".

That magazine is one of Capt. Fawcett's pet hobbies, a second is "Breezy Point" lodge and a third is trap shooting. At the recent Grand American Handicap at Chicago, Capt. Fawcett was the only trap shooter who flew to the shoot in an aeroplane. The captain was high man in the Minnesota delegation and out of 700 to 800 shooters taking part, he stood 66 in the honor roll.

Nature's Calling

At "Breezy Point" one gets close to nature. When an all round sportsman like Capt. Billy Fawcett decides to make his summer resort something unusual he succeeds. All you need to do is visit the place and be convinced.

The resort grounds originally measured 120 acres and on Friday of last week 20 additional acres were purchased from W. H. McIntyre to be used in extending the air field and providing more room for a golf course.

One enters the grounds through a beautiful gateway. Roadways built by Capt. Fawcett measure over a mile and a half in length and are kept in the finest shape. To the left is a large flying field where the Curtis two-passenger plane of the captain makes daily flights. This summer 250 guests had free flights, 23 being taken up in one day. A hangar will be built next season. The captain figures on adding a regular sky limousine to the flying equipment, a \$12,000 machine.

Near the flying field an 18 hole golf course will be laid out by an expert. No pains will be spared to make it an up to date course.

Passing a row of small cottages, one of which is tenanted by Supt. Robert Kirby, the manager in charge of Breezy Point, one comes to a large white pleasant structure with veranda, which houses the dining room. Fifty can be seated in the dining room and adjacent rooms opening into the same. In the large basement are the Delco lighting plant which illuminates grounds, headquarters building, club house and pavilion and the many cottages. A pumping plant supplies water and automatically starts up as soon as the reserve commences being used up.

Next year, said Supt. Kirby, a cafe with a la carte service will be installed and the innovation is expected to be popular from the very start.

Club House and Pavilion

The club house and pavilion lies east and to the left of the headquarters building. It is elaborately furnished and illuminated and faces the lake, gaining the breezes which play from all sides. Broad verandas envelope the building. Towards the right lies the cement tennis court.

To the left is the trap shooting grounds. There are five elevated stations. The trap house has a cement floor and is constructed of heavy native rock set in cement, the artistic work of Gus Colmar, who also built the many wonderful rock and brick fireplaces of the cottages. The lever throwing the clay birds is operated from the elevated platform. Shooters face the lake.

A small store is operated in the

club house and carries general supplies.

On the Lake

A 300 foot dock stretches out in to the lake and has near by a "shoot the chutes", diving tower and float.

Out in the lake one sees many row-boats. There are fishing parties galore. There are black bass, big Great Northern pike, and pickerel, and crappies awaiting a test of the angler's skill.

At present Breezy Point has 15 boats and a nine passenger launch. There is under construction a large boat house to shelter 30 boats. Next season more boats will be added and a real cruising launch, 35 feet long.

An Incinerator

To show what a clean and inviting place Breezy Point is, Supt. Kirby mentioned the completion of an incinerator. This will quickly and in a most sanitary manner dispose of all garbage. It will be in full operation Tuesday night.

Near the lake another new structure about finished is an ice house with cement floor which will contain a refrigerator to be used by the nearby hotel and store. Another building just completed houses laundry, carpenter shop, linen room and store house.

A large barn contains glossy coated saddle horses for adults and Shetland ponies for the children.

Five more docks are to be built next year and a section of the lagoon near the hotel is to be dredged out. The Delco light system is to be enlarged and water pumpage increased.

Toilets on the grounds are the last word in sanitary arrangements. They have the latest plumbing. Larger ones near the hotel also carry shower baths.

The Cottages

Ascending a small rise to the right of the pavilion one comes in the vicinity of the cottages. There are twenty of them, named in their order after Minneapolis streets. They range from one to five rooms, stand on a high bank overlooking the lake, have paths at the front and a driveway at the rear. The exterior of all is stained brown. Fireproof roofing was used on all cottages. All have verandas. Some are built of frame and some of logs, and a large proportion have fireplaces of brick and stone.

Named in their order as they extend to the right of the pavilion are these cottages: Aldrich, Bryant, Colfax, Dupont, Emerson, Fremont, Girard, Humboldt, Irving, James, Knox, Logan, Morgan, Newton, Oliver, Penn, Queen, Russell, Sheridan and Thomas.

The "Thomas" will be occupied by Capt. Fawcett. Near it is a stand with fancy roof and carrying a flag pole. The stand gives a magnificent view of Big Pelican and vicinity. Within is a table and seating room for five.

Cottages which are rented are supplied with oil for oil stoves, ice, all necessary cooking utensils, running water, electric lights, substantial furniture, sleeping porch equipment, etc. If desired linen may also be rented.

Cottagers are given the free use of (Continued on Page Six)

GRAND LODGE OFFICERS COMING

Rushworth Encampment No. 19 L. O. O. F. of Brainerd will be hosts to the new grand officers elected at the grand lodge session, held in Virginia in July, on Monday evening, September 12th.

Grand Patriarch G. S. Rodmon of Pipestone and Grand Scribe M. H. McDivitt of Minneapolis have signified their intention of being here and it is expected that most of the other officers will also attend.

The meeting will be open to all Odd Fellows in this district and invitations have been sent to the lodges in the neighboring towns.

It is expected that the Rebecca lodge members will furnish refreshments and preparations are being made for a record beaking crowd.

OVER STEEP BANK

County Attorney S. F. Alderman Crowded Off Steep Bank, Has Miraculous Escape

Returning to Brainerd from the lakes Saturday evening, S. F. Alderman, county attorney, was crowded off the first hill on the Gull lake road this side of the Minnesota and International track and the Brainerd Country club grounds. In seeking to pass an oncoming car, Mr. Alderman was crowded into loose sand at the top of the hill and the car overturned in the ditch at the foot of the hill. The wind shield was broken and the top damaged. Mr. Alderman had his hand badly cut by glass and sustained some bruises. He was able to be out next day.

Henry Rosko, of Rosko Brothers, was called and repaired the starting gear with a hair pin he borrowed from a woman spectator. He then drove the Dodge right up a 45 per cent grade bank on to the road and back to the garage where repairs were speedily made.

Dr. C. G. Nordin Reports Loss of His Buick Six, Car was Insured in Brainerd Agency

Dr. C. G. Nordin, touring in St. Paul during the holidays, had his Buick six, 1920 K. model, No. 643-742 stolen. Police were notified. Dr. Nordin carried \$1100 insurance in the St. Paul Fire & Marine Insurance Company a company of which G. W. Chadbourn is local agent.

Dr. Nordin and family returned home by train Tuesday afternoon. The doctor said his car was parked near the post office in St. Paul the afternoon it was stolen and that he had the ignition locked. All he has left of the car today is the key. Thieves at the time the doctor's car was stolen, appropriated five more automobiles within a few blocks on the same street.

Cuyuna, Minn. Sept. 6—Gust Lind, married, age 37, was instantly killed at the Kennedy mine of the Rogers Brown Ore Co. when a station plank was dislodged and he fell 140 feet. His skull was fractured and he was also internally injured. Lind had been replacing decayed timbers in the shaft.

He leaves a wife and eight children, the latter ranging in age from a babe in arms, 4 and ½ months old to a child of 14.

Evidently Did Not Fear Washington.

David Burns owned the farm on which the executive mansion and many department buildings now stand at Washington, a thrifty Scot, who objected to giving the land for Lafayette square. When Washington reminded him he would have been a poor tobacco raiser had the federal government not chosen his farm, he replied that but for a fortunate marriage Washington would have been an ordinary surveyor, but Washington got the land he wanted.

All the Attractions of an Exclusive Summer Resort, All Conveniences of a Modern City

GROUNDS INCLUDE 140 ACRES

Bathing, oBating, Canoeing, Motor-ing, Fishing, Tennis, Trap Shoot-ing, Dancing, Aeroplane, Etc.

Nestling on the beautiful shores of Big Pelican lake, 20 miles north of Brainerd and reached by the Gull lake road to Pequot and thence five miles eastward over a scenic, winding road, lies wonderful "Breezy Point Lodge" of Capt. W. H. Fawcett.

To the beauties of nature have been added the arts of man and it is with something akin to admiration and wonder that the Dispatch man heralds the achievements wrought by Capt. "Billy" Fawcett, a brother newspaper man.

"Whiz Bang"

Capt. Fawcett is no more versatile in his accomplishments than is "Breezy Point" in the attractions it offers tourists and visitors. Capt. Fawcett is a Spanish and World War veteran, a successful editor of "Capt. Billy's Whiz Bang," a 67 page magazine published monthly at Robbinsdale and which this September had an issue of 390,000 copies. It is a magazine replete with wit, humor and philosophy. At the man's head Theodore Roosevelt: "We have room for but one soul loyalty and that is loyalty to the American people."

That magazine is one of Capt. Fawcett's pet hobbies, a second is "Breezy Point" lodge and a third is trap shooting. At the recent Grand American Handicap at Chicago, Capt. Fawcett was the only trap shooter who flew to the shoot in an aeroplane. The captain was high man in the Minnesota delegation and out of 700 to 800 shooters taking part, he stood 66 in the honor roll.

Nature's Calling

At "Breezy Point" one gets close to nature. When an all round sportsman like Capt. Billy Fawcett decides to make his summer resort something unusual he succeeds. All you need to do is visit the place and be convinced.

The resort grounds originally measured 120 acres and on Friday of last week 20 additional acres were purchased from W. H. McIntyre to be used in extending the air field and providing more room for a golf course.

One enters the grounds through a beautiful gateway. Roadways built by Capt. Fawcett measure over a mile and a half in length and are kept in the finest shape. To the left is a large flying field where the Curtiss two-passenger plane of the captain makes daily flights. This summer 250 guests had free flights, 23 being taken up in one day. A hangar will be built next season. The captain figures on adding a regular sky limousine to the flying equipment, a \$12,000 machine.

Near the flying field an 18 hole golf course will be laid out by an expert. No pains will be spared to make it an up to date course.

Passing a row of small cottages, one of which is tenanted by Supt. Robert Kirby, the manager in charge of Breezy Point, one comes to a large white pleasant structure with veranda, which houses the dining room. Fifty can be seated in the dining room and adjacent rooms opening into the same. In the large basement are the Delco lighting plant which illuminates grounds, headquarters building, club house and pavilion and the many cottages. A pumping plant supplies water and automatically starts up as soon as the reserve commences being used up.

Next year, said Supt. Kirby, a cafe with a la carte service will be installed and the innovation is expected to be popular from the very start.

Club House and Pavilion

The club house and pavilion lies east and to the left of the headquarters building. It is elaborately furnished and illuminated and faces the lake, gaining the breezes which play from all sides. Broad verandas envelope the building. Towards the right lies the cement tennis court.

To the left is the trap shooting grounds. There are five elevated stations. The trap house has a cement floor and is constructed of heavy native rock set in cement, the artistic work of Gus Colmar, who also built the many wonderful rock and brick fireplaces of the cottages. The lever throwing the clay birds is operated from the elevated platform. Shooters face the lake.

A small store is operated in the

club house and carries general supplies.

On the Lake

A 300 foot dock stretches out into the lake and has near by a "shoot the chutes", diving tower and float.

Out in the lake one sees many row-boats. There are fishing parties galore. There are black bass, big Great Northern pike, and pickerel, and crappies awaiting a test of the angler's skill.

At present Breezy Point has 15 boats and a nine passenger launch. There is under construction a large boat house to shelter 30 boats. Next season more boats will be added and a real cruising launch, 35 feet long.

An Incinerator

To show what a clean and inviting place Breezy Point is, Supt. Kirby mentioned the completion of an incinerator. This will quickly and in a most sanitary manner dispose of all garbage. It will be in full operation Tuesday night.

Near the lake another new structure about finished is an ice house with cement floor which will contain a refrigerator to be used by the nearby hotel and store. Another building just completed houses laundry, carpenter shop, linen room and store house.

A large barn contains glossy coated saddle horses for adults and Shetland ponies for the children.

Five more docks are to be built next year and a section of the lagoon near the hotel is to be dredged out. The Delco light system is to be enlarged and water pumpage increased.

Toilets on the grounds are the last word in sanitary arrangements. They have the latest plumbing. Larger ones near the hotel also carry shower baths.

The Cottages

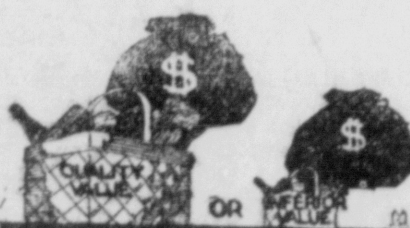

Ascending a small rise to the right of the pavilion one comes in the vicinity of the cottages. There are twenty of them, named in their order after Minneapolis streets. They range from one to five rooms, stand on a high bank overlooking the lake, have paths at the front and a driveway at the rear. The exterior of all is stained brown. Fireproof roofing was used on all cottages. All have verandas. Some are built of frame and some of logs, and a large proportion have fireplaces of brick and stone.

Named in their order as they extend to the right of the pavilion are these cottages: Aldrich, Bryant, Colfax, Dupont, Emerson, Fremont, Girard, Humboldt, Irving, James, Knox, Logan, Morgan, Newton, Oliver, Penn, Queen, Russell, Sheridan and Thomas.

The "Thomas" will be occupied by Capt. Fawcett. Near it is a stand with fancy roof and carrying a flag pole. The stand gives a magnificent view of Big Pelican and vicinity. Within is a table and seating room for five.

Cottages which are rented are supplied with oil for oil stoves, ice, all necessary cooking utensils, running water, electric lights, substantial furniture, sleeping porch equipment, etc. If desired linen may also be rented.

GRAND LODGE OFFICERS COMING

Rushworth Encampment No. 19 I. O. O. F. of Brainerd will be hosts to the new grand officers elected at the grand lodge session, held in Virginia in July, on Monday evening, September 12th.

Grand Patriarch G. S. Rodmon of Pipestone and Grand Scribe M. H. McDivitt of Minneapolis have signified their intention of being here and it is expected that most of the other officers will also attend.

The meeting will be open to all Odd Fellows in this district and invitations have been sent to the lodges in the neighboring towns.

It is expected that the Rebecca lodge members will furnish refreshments and preparations are being made for a record beaking crowd.

OVER STEEP BANK

County Attorney S. F. Alderman Crowded Off Steep Bank, Has Miraculous Escape

Returning to Brainerd from the lakes Saturday evening, S. F. Alderman, county attorney, was crowded off the first hill on the Gull lake road this side of the Minnesota and International track and the Brainerd Country club grounds. In seeking to pass an oncoming car, Mr. Alderman was crowded into loose sand at the top of the hill and the car overturned in the ditch at the foot of the hill. The wind shield was broken and the top damaged. Mr. Alderman had his hand badly cut by glass and sustained some bruises. He was able to be out next day.

Henry Rosko, of Rosko Brothers, was called and repaired the starting gear with a hair pin he borrowed from a woman spectator. He then drove the Dodge right up a 45 percent grade bank on to the road and back to the garage where repairs were speedily made.

BOY INJURED BY CAR

Floyd Way, Age 12, Struck by Automobile While Stepping From a Bus

Floyd Way, 12 years old, was struck by an automobile Monday night in Southeast Brainerd as he was alighting from the Crosby bus. The accident happened on Oak street and the boy was dragged some distance and his head and body bruised.

FIRES ARE RAGING NEAR RIVERTON

Fires near Riverton, 20 miles east of Brainerd, threatened farmers' homes and the Brainerd Chamber of Commerce responded to appeals for aid this afternoon by rushing three automobiles loaded with men and shovels to the scene.

Unconfirmed rumor in Brainerd is to the effect that Isle, a small town on the southeast end of Mille Lacs lake, had succumbed to a rush of flames.

CAR STOLEN IN ST. PAUL

Dr. C. G. Nordin Reports Loss of His Buick Six, Car was Insured in Brainerd Agency

Dr. C. G. Nordin, touring in St. Paul during the holidays, had his Buick six, 1920 K. model, No. 643,742 stolen. Police were notified. Dr. Nordin carried \$1100 insurance in the St. Paul Fire & Marine Insurance Company a company of which G. W. Chadbourne is local agent.

Dr. Nordin and family returned home by train Tuesday afternoon. The doctor said his car was parked near the postoffice in St. Paul the afternoon it was stolen and that he had the ignition locked. All he has left of the car today is the key. Thieves at the time the doctor's car was stolen, appropriated five more automobiles within a few blocks on the same street.

PHENOMENAL CUT

Brainerd Electric Co. Announces Reduction in Price of Eden Washer From \$160 to \$110

The Brainerd Electric Company has announced a wonderful price reduction in standard washing machines. The Eden has dropped from \$160 to \$110 and a shipment of 15 washing machines left Duluth Saturday for the Brainerd firm.

"People have grown accustomed to hearing of price cuts in automobiles," said B. E. Dunham, of the Brainerd Electric Company, "and they will look up when they see that electric washing machines such as the Eden are following suit."

CUYUNA

Cuyuna, Minn. Sept. 6.—Gust Lind, married, age 37, was instantly killed at the Kennedy mine of the Rogers Brown Ore Co. when a station plank was dislodged and he fell 140 feet. His skull was fractured and he was also internally injured. Lind had been replacing decayed timbers in the shaft.

He leaves a wife and eight children, the latter ranging in age from a babe in arms, 4 and ½ months old to a child of 14.

Evidently Did Not Fear Washington.

David Burns owned the farm on which the executive mansion and many department buildings now stand at Washington, a thrifty Scot, who objected to giving the land for Lafayette square. When Washington reminded him he would have been a poor tobacco raiser had the federal government not chosen his farm, he replied that but for a fortunate marriage Washington would have been an ordinary surveyor, but Washington got the land he wanted.

FIRST thing you do next—go get some makin's papers and some Prince Albert tobacco and puff away on a home made cigarette that will hit on all your smoke cylinders!

No use sitting-by and saying maybe you'll cash this hunch tomorrow. Do it while the going's good, for man-o-man, you can't figure out what you're passing by! Such flavor, such coolness, such more-ish-ness—well, the only way to get the words emphatic enough is to go to it and know yourself!

And, besides Prince Albert's delightful flavor, there's its freedom from bite and parch which is cut out by our exclusive patented process! Certainly—you smoke P. A. from sun up till you slip between the sheets without a comeback.

Prince Albert is the tobacco that revolutionized pipe smoking. If you never could smoke a pipe—forget it! You can—AND YOU WILL—if you use Prince Albert for packing! It's a smoke revelation in a jimmy pipe or a cigarette!

Prince Albert is sold in tippy red bags, tidy red tins, handsome pound and half pound tin humidors and in the pound crystal glass humidors with sponge moistener top.

vs.
James McK. Taylor, Edwin Topp, Lyman P. White Jr., G. G. Hartley, Joel Smith, Joel B. Smith, and all other persons unknown claiming any right, title, estate, interest or lien in the real property described in the complaint herein.

SUMMONS
The State of Minnesota to the above named defendants:

You are hereby summoned and required to answer the complaint of the Plaintiffs herein, which complaint is on file in the office of the Clerk of the District Court in and for above County and State; and to serve a copy of your answer upon the subscribers at their offices in the Citizens State Bank Building, Brainerd, Minnesota, within twenty (20) days after the service of this summons upon you, exclusive of the day of such service; and if you fail to so answer the said complaint within the time aforesaid, plaintiff will apply to the court for the relief demanded in said complaint.

M. E. & C. A. RYAN,
Attorneys for Plaintiffs,
Brainerd, Minnesota

Same parties as in summons immediately preceding this notice.

Notice is hereby given that an action has been commenced in the above court by the above named plaintiffs against the above named defendant, the object of which is to obtain a judgment that plaintiffs are the owners in fee of the West half of the Southwest quarter (W $\frac{1}{2}$ -SW $\frac{1}{4}$) of Section numbered Twenty-seven (27), Township numbered Forty-four (44) North of Range numbered Thirty-one (31) West, Crow Wing County, Minnesota, and that defendants, and each of them, have no estate or interest or lien thereon.

ground was first broken, following which the many buildings were put up, roadway planned and laid out, cottages built and furnished, etc. As high as 16 carpenters, numerous painters and helpers were employed daily. This with the help at the hotel, etc., has bought the payroll to close to \$2,000 a week.

Thousands of dollars were spent in Brainerd where hardware, furniture, a Delco plant and other machinery were bought. Large amounts of supplies were also bought in Pequot.

"Breezy Point" has given employment and will continue to do so to many settlers in its vicinity.

Improvements Next Year
Improvements next year include a baseball field, indoor baseball, a handball court, the enlarged golf course, enlarged flying field, more boats and the big launch another flying machine more cottages, \$1500

worth of vines, shrubbery and trees to be set out, a hangar for the flying field, a recreation grounds with a play director in charge of small children visitors, enlargement of the wild bird and animal display. The latter now contains pigeons of various unusual rare breed, golden pheasants, turkeys, prize winning chickens, African geese mallard, drake, guinea hens and a monkey. Jocko is a playful fellow and likes the little people. Another improvement contemplated is an internal switchboard system operated at the club house and connecting with all cottages and every section of the grounds.

Entertainments
During this season many entertainments have been given at Breezy Point.

These have ranged from barbecues to dances from trap shooting to aquatic sports. The Fourth of July was fervently celebrated. Capt. Homer Cole, who saw service in the flying corps overseas, went aloft in his plane loaded with fireworks and shot them off at night. The daring aviator wrote his name in letters of fire in the sky.

At the barbecue early in August 150 pounds of beef was roasted and 40 gallons of coffee served. The coffee was extraordinary good, for Supr. Kirby made it himself.

Next season there will be bean bakes with the ceremony of burying them one night and the ceremony of taking the luscious beans from the

hole and serving them next day. There will be wiener roasts, marshmallow roasts, corn roasts, masquerade balls and fancy dress parties with novel favors, trap shooting tournaments, golf games, handball games, etc.

Two weeks ago a harvest home festival was staged. There was a glowing display of fruits and vegetables, grasses and grains in the pavilion. Guests came arrayed in overalls.

Deer Season
When the deer season opens Capt. Fawcett will bring a large party of nimrods from the cities to take in the shooting. During the winter experienced caretakers will be at the grounds.

Breezy Point's season of 1922 is expected to open in April. The full

rush of tourists will be under way in May and continue to late autumn.

"Breezy Point" has given employment and will continue to do so to many settlers in its vicinity.

Improvements Next Year

Improvements next year include a baseball field, indoor baseball, a handball court, the enlarged golf course, enlarged flying field, more boats and the big launch another flying machine more cottages, \$1500 worth of vines, shrubbery and trees to be set out, a hangar for the flying field, a recreation grounds with a play director in charge of small children visitors, enlargement of the wild bird and animal display. The latter now contains pigeons of various unusual rare breed, golden pheasants, turkeys, prize winning chickens, African geese mallard drake, guinea hens and a monkey. Jocko is a playful fellow and likes the little people. Another improvement contemplated is an internal switchboard system operated at the club house and connecting with all cottages and every section of the grounds.

Entertainments

During this season many entertainments have been given at Breezy Point.

These have ranged from barbecues to dances from trap shooting to aquatic sports. The Fourth of July was fervently celebrated. Capt. Homer Cole, who saw service in the flying corps overseas, went aloft in his plane loaded with fireworks and shot them off at night. The daring aviator wrote his name in letters of fire in the sky.

At the barbecue early in August 150 pounds of beef was roasted and 40 gallons of coffee served. The coffee was extraordinary good, for Sup. Kirby made it himself.

Next season there will be bean bakes with the ceremony of burying them one night and the ceremony of taking the luscious beans from the

hole and serving them next day. There will be wiener roasts, marsh-mallow roasts, corn roasts, masquerade balls and fancy dress parties with novel favors, trap shooting tournaments, golf games, handball games, etc.

Two weeks ago a harvest home festival was staged. There was a glowing display of fruits and vegetables, grasses and grains in the pavilion. Guests came arrayed in overalls.

Deer Season

When the deer season opens Capt. Fawcett will bring a large party of nimrods from the cities to take in the shooting. During the winter experienced caretakers will be at the grounds.

Breezy Point's season of 1922 is expected to open in April. The full

rush of tourists will be under way in May and continue to late autumn.

Laughing in His Sleeve

"I was told nothing but an operation would help my stomach trouble, and was getting ready for the operation when a friend advised me to try Mayr's Wonderful Remedy. The first dose helped me. I am now as well as ever in my life, and am laughing up my sleeve at the doctors." It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded. Johnson's Pharmacy and all leading druggists.
